PROJECTS

FailureOJ Solo project

React, TypeScript, Express, PostgreSQL, Prisma, Python, FastAPI, SymPy, Redis

- Built a bilingual math and science platform with answer submissions, notebook-image uploads, contests, standings, ratings, and learning resources.
- Implemented a separate Python/FastAPI judge using SymPy for equivalent numeric expressions and tolerance-based answer checking.
- Integrated a Redis-backed retry queue and Socket.IO verdict updates; configured an Android build with Capacitor.
